

# #1 LOW-CODE PLATFORM IN THE CLOUD

## Business Applications at the Speed of *Now*

TrackVia helps businesses streamline operations by eliminating manual data entry or spreadsheets and automating critical workflows. Our leading low-code platform provides a radically faster, easier way to create web and mobile applications customized to your company's precise needs in a fraction of the time of heavy enterprise software.

IT'S FAST & EASY

Web and mobile applications built on the TrackVia platform are infinitely configurable and versatile. With the help of our expert staff, most clients deploy their custom applications in weeks, not months and with clicks, not code.

Our platform leads the way in rapid and easy application creation and configuration by providing users with its signature drag-and-drop functionality and intuitive, visual tools. It also delivers advanced developer features, such as App Scripts and robust API options, for deeper levels of integration and highly sophisticated customizations.

IT'S CUSTOMIZABLE

Leverage the TrackVia platform to configure and tailor your applications to the way you operate your business both today and in the future. Modify, tweak and adapt your apps anytime, with just clicks, to ensure that your platform is always up-to-date. The best part? Changes you make to apps on your platform are instantly reflected across all of your web and mobile devices.

## IT'S MOBILE

Unlike most vendors, which only offer a web-based solution or require separate coding, native mobile apps for iOS and Android devices are built into the TrackVia platform—providing you with unique advantages including:

- ✓ Collect and edit data anywhere
- ✓ Scan barcodes to add a record, or to search
- ✓ Access dashboards and reports on the go
- ✓ Enter data, even when offline
- ✓ Attach audio notes to records
- ✓ Capture signatures
- ✓ Take photos, annotate by hand or geotag

## IT'S SECURE & SCALABLE

Partnered with Amazon AWS, TrackVia is the leading low-code platform in the cloud—allowing you to effortlessly scale your applications. Between our industry-leading network security, SSL connections, advanced at-rest encryption, customizable roles and permissions, and enterprise-level authentication protocols, you can rest assured that your TrackVia applications are completely secure at all times.

## WORLD-CLASS SUPPORT

TrackVia offers professional services and world-class support, with the average amount of time to close a ticket under six hours, and a same-day response rate of 98 percent.

## BUSINESSES TRUST TRACKVIA

More than 800 businesses rely on TrackVia, including many Fortune 500 enterprises.

“TrackVia ultimately gave us what we needed, how we needed it, and within the aggressive timeframe that we had. To build an enterprise-grade, mobile business application within weeks was very impressive. **We simply could not find any other solution with the flexibility and power of TrackVia.**”

--David Mage, Construction Santé Montréal
