

TRACKVIA IMPLEMENTATION SERVICES

LEVERAGE EXPERTS TO MAKE THE MOST OF YOUR INVESTMENT

TrackVia™ is a powerful platform that enables anyone to build custom apps for any operational workflow or process. Yet, with experts at your side, creating your custom apps becomes even easier.

TrackVia Implementation Services helps you navigate the behind-the-scenes world of database architecture, workflow mapping, automation scripts, and application design --- ensuring a fast and seamless implementation of your custom application(s).

STEP-BY-STEP GUIDANCE FROM TRACKVIA EXPERTS

With TrackVia Implementation Services you make the most of your investment with expert, step-by-step help through the development and implementation of your custom application.

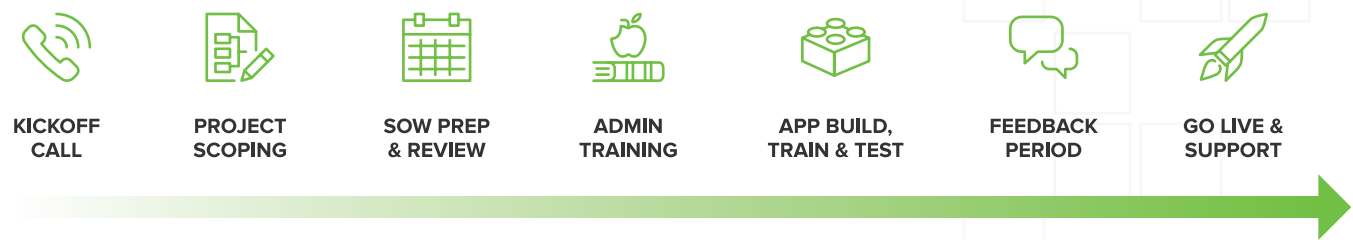

Leverage TrackVia Implementation Services experts to help you with:

- Application design
- Database architecture
- Workflow mapping
- Automation scripts (automating repetitive tasks)
- Project management
- Administrative training
- Application deployment

“The TrackVia team from Sales to Engineering to Implementation was prompt, informative, and extremely patient. The personal attention spent during implementation is invaluable. We look forward to many successful years ahead using this platform.”

– MOBILE MOUNTS

TrackVia Implementation Services is an end-to-end process from kickoff and project scoping to go-live and ongoing support. The process includes these key steps:

FAST, COMPREHENSIVE IMPLEMENTATION PLANS
